

HealthChoices

Your reward for healthy decisions

HealthChoices

Your Funding Advantage health plan includes the HealthChoices benefit. HealthChoices rewards you with immediate monthly premium savings and requires you to use the services listed to help you receive the best care and the best benefits from your health plan.

Call your
HealthCare Assistant at
844-287-6078
with your health or
benefit questions.

Under the HealthChoices benefit, you have the advantage of having lower or waived out-of-pocket costs when you or other covered family members require medical treatment that falls within one of our specified services and you follow the protocols set out in the plan. For members whose provider did not call 866-317-5273 (option 3) to prenotify, these services may be treated as out-of-network and/or have reduced benefits.

Please follow all directions on your HealthChoices ID card and give it to all of your health care providers.

Services include:

- Diabetes and lifestyle management
- Behavioral health management (depression, anxiety, substance abuse, eating disorders, PTSD, etc.)
- Quality providers and bundled pricing for non-emergency outpatient surgery or imaging
- Specialty drug management — Both education and possibility of reduced pricing

As a HealthChoices benefit participant, your provider must prenotify us by calling 866-317-5273 (option 3) anytime they recommend a procedure or anytime you will be receiving any of the following procedures:

- Joint replacements or surgeries (knee, hip, shoulder, etc.)
- Spinal surgeries or procedures (laminectomy, spinal fusions, foraminotomy, discectomy, disk replacement, implants)
- Cardiac interventions (angioplasty, stents, pacemakers) or surgeries (bypass, valve replacement)
- Other surgeries, gall bladder, digestive system
- Complex imaging, like MRIs and CT Scans

Visit www.alliednational.com/healthchoices or call 844-287-6078 when you need guidance about a serious medical concern and want to save money.

For members with HSA qualified plans, any benefit increases will be subject to applicable HSA deductible minimums.
